

Optimise the auditing, assessment and compliance process by leveraging handheld computing technology. **UmtAudit™** software enables auditors and assessors to carry out audits and assessments easily and **CREATE reports INSTANTLY.**

**UmtAudit™** is a new software program that allows you to perform **PAPER FREE** assessments and eliminates the tedious task of data capture and data entry. Now you can **QUICKLY CAPTURE DATA** on a handheld computer and transfer the data with the click of button into preconfigured reports, Ms Access or StatAudit to produce analyses.

Professional reports can be printed on site at the close of an audit with a compatible portable printer.

### Save Time, Save Money

By providing instant reports the Auditor that uses **UmtAudit™** will save time and the organisation will save money by getting their results faster.

- Traditionally once an inspection was complete, the lead auditor needed to collect all of the observations and compile a comprehensive report from the piles of paperwork and scribbled notes. Now with the **UmtAudit™** solution, reports are available automatically, eliminating the entire post-audit stage.

### Perform a More Thorough Inspection

Using, inspectors are able to collect required data more efficiently, allowing more attention to detail during the assessment process.

- Instead of re-writing similar answers for numerous questions and spending countless hours transcribing indecipherable notes - **UmtAudit™** allows you to pre-program a wide variety of answers, or easily type your comments while on site. No more transcribing or data processing is required, leaving more time to focus on the assessment.

### Facilitate the Auditing process

Now, all of the information you need to perform and complete the study can be stored in the palm of your hand. This allows you to standardise your audits and makes the process easier and faster.

- Configuring **UmtAudit™** with your specific protocols saves significant time when training auditors. This also reduces the time employees spend compiling reports.

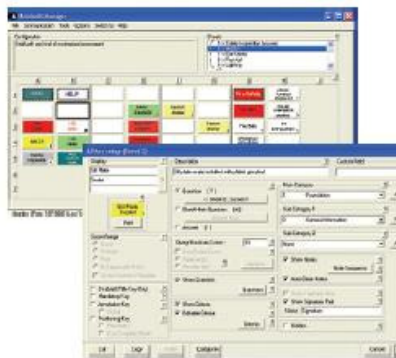

Because time is your most critical resource

**UmtAudit™** the most all-inclusive auditing software on the market. This package offers an abundance of useful features, a comprehensive management program as well as professional statistical analysis software.

**Record your observations with the click of a button using UmtAudit™**
